NOTES

- The pattern is made up of different parts made and sewn together. First, we make the base and then the cake followed by 3 parts which will then need to be sewn onto the cake.
- Anything in () work as many times as stated. You are also working the lolly from top to bottom.

SPECIAL STITCHES

Bobble Stitch - Yarn Over, insert hook into stitch and pull up a loop. Yarn over, pull through two. (This is essentially completing the first half of one double crochet stitch.) 2. Repeat number one in the same stitch/space until you have a total of 6 loops on your hook. 3. Yarn over, pull through all 5 loops at once. (It helps to keep this part a bit tighter than the rest).

Shell Stitch – Consists of (2tr, 1dtr, 2tr) all in the same stitch.

Picot - Chain 2, ss into 2rd chain from the hook.

Happy Birthday Cake

Assembly

First, we need to add the eyes onto the cake. I added my eyes between rounds 12 & 13 with 5 stitches in between. I then used a little of the **Yarn G** and embroidered a mouth in the centre just below the eyes. Now you need to stuff the cake nearly full and we then need to begin sewing the frosting onto the top of the cake. Thread the long tail you left onto a needle and sew the shells onto the side of the cake evenly around stuffing as you go (don't over stuff as you want a nice flat cake top). After sewing all the shells in place and to make it more secure I went round again and sewed the stitches in between the shells securely to the cake.

Now you need to sew the candle onto the centre of the frosting at the top of the cake and last not but not least you then need to sew the flame onto the top of the candle.

All Finished!!

ABOUT ME

I started learning to crochet in October 2016. Me and my family were on holiday in Wales and I bought a hook, some wool and I made a hat for my daughter!

Since then I have had a hook in my hand everyday (nearly) and my house has been overtaken by wool!

I have fallen head over heels in love with crochet and love making and designing patterns for people to create beautiful things from!

Thank you!

Hope you enjoyed making your pattern!
Please don't forget to tag me in your makes I would love to see them! @emkatchrochet
